

USG Energy Production Services

USG Energy is a specialist service provider of personnel for drilling, production and engineering activities, as well as providing medical back-up in exploration and exploitation of Oil and Gas reserves. The USG Production Unit provides professionals for production and gastreatment installations. Our service is aimed at Oil and Gas companies and at service companies doing a variety of work implemented by an Oil and Gas company at production platforms.

Personnel Services

Unit Production provides the industry with professionals who play a role in the production process of Oil and Gas:

- Mechanical engineering personnel: operators, mechanics, engineers.
- Vertical transport personnel: crane operators, roustabouts, banksmen.
- Helideck teams: helicopter landing officers (HLO's), helideck assistants (HDA's).
- Electro-technical professionals: electricians, E/I-technicians.
- Logistical duties: radio operators, administrators, material coordinators.
- Personnel for offshore-related shipping: mates, engineers and riggers.

Production Services

In addition to providing professionals, the following services are provided:

- Personnel training based upon industrial safety standards.
- Organise and plan training according to the client's specific demands.
- Administrative monitoring of personnel planning, having frequent contact with both professionals and client.
- Enrolling personnel for various registration systems.
- Assistance in personnel appraisals.
- Provision of personal protective equipment according to client's specifications. We can also comply with any of the client's other specific requirements.

Leading Partner in the Oil and Gas Industry

With many years of experience and a leading position in the market USG Energy has developed into a specialist in the area of personnel, training, and law and regulation in the offshore industry. To clients our skilled and experienced personnel make USG Energy a recognised partner and valued source of information. All operational personnel of the Unit Production are offshore-trained and visit production locations on a regular basis.

Intake and career perspectives of new professionals

Well-educated, experienced and motivated personnel are the keys to success for USG Energy. We play a significant role within the offshore industry with regard to the necessary intake of new personnel into the sector. By means of specialised education, training and certification the Production Unit offers both current and joining staff within the offshore industry, various developing and growing possibilities. In addition, we will carefully attune the educational background and experience of professionals to the wishes and criteria of the client.

USG Energy: well trained, experienced and motivated personnel as key to success in the Oil and Gas Industry.
